OPFOR Smartbook: North Korean Military **NEW!**

North Korean Forces, Operations & Tactics

North Korea is one of the most militarized countries in the world and remains a critical security challenge for the United States, our Northeast Asian allies, and the international community. The Kim regime has seen itself as free to take destabilizing actions to advance its political goals, including attacks on South Korea, development of nuclear weapons and ballistic missiles, proliferation of weapons, and cyberattacks against civilian infrastructure worldwide.

OPFOR2 topics and chapters include the strategic environment (intro to North Korea, capabilities & intent, framework for military operations), force structure (KPA: Ground Forces, Navy, Air & Air Defense Force, Strategic Force, Special Operations, Reserve and Paramilitary forces, Internal Security & Intel Services), functional tactics, reconnaissance & security, offensive and defensive actions (operational level divisions & regiments, tactical level, complex operational environments), counterstability actions, electronic intelligence warfare, equipment and capabilities.
